

EnerSys® Financial SolutionsSM offers **alternative payment options** for your battery purchases

Through our tailored equipment finance and lease solutions, EnerSys® customers can get the equipment they need to run their business today and avoid a large, upfront cash investment.

- Up to **100% project financing** (including installation and maintenance)
- **Preserve capital** and spread costs over future budget periods
- **Meet unexpected demands** and avoid obsolescence with flexible end of term options (including fair market value or fixed purchase prices, lease renewals or equipment upgrades)
- Benefit from **competitive and low market rates** that help reduce total cost of ownership and accelerate your return on investment

EnerSys® Financial SolutionsSM makes the process easy with straightforward documentation and flexible terms.
